Red and Bonita Report.doc

Hi Steve,

Done with Red and Bonita cultural. The report worked out well, in that I was able to narrowly define how Red and Bonita is eligible, while excluding the project area from the finding.

I also convinced SHPO to allow me to include Gold King without having to re-visit the site.

I'm submitting the report and forms as a draft, and if I don't hear back from you, I'll assume that you're happy with it.

Thanks!

Twitty

Eric,

Just incase the area where we put the retention pond is of similar concern, i.e., did we impact something previously in good shape, here's the before.

Thank you again,

Steve

Eric,

Here's a photo of the base of the dump when we first were onsite before any disturbance by EPA operations. Not sure this helps or not.

Steve
